Internat Energy Solutions Canada (IESC) is an independent professional consulting firm. We help our clients remain competitive in a changing world by providing them with expert advice obtained through accurate and unbiased studies. Our collection of tools and best practices assist our customers in achieving their energy efficiency and sustainability goals through a multi-dimensional and holistic approach, supported by data driven analysis and promoting long term cohesion between the built and living environments.

IESC is looking to fill the open position with a motivated individual that believes strongly in the design goals of improving building comfort while reducing energy requirements. You will be joining an international team with established processes for success but will be given an opportunity to contribute new ideas to further our clients' business relationship with IESC. IESC strongly believes in continued education and promotes training alongside new work experiences to ensure the team member is exposed to new challenges at the pace they enjoy. Our offices are in the heart of Toronto at Spadina and King and Calgary at 611 10th Avenue SW.
